19 Feb 2025 03:30:11 PM	Brad KAASTRUP from Paradise Valley called. There is a road that he would like to get some grain out of the bins. The road is too slippery to get up a hill. Wonder if they could get the road scarrified at the intersecion where TWP 462 meets RR 33 just south of TWP 462 and then TWP 462 around the corner East of RR 33. Hoping to haul the beginning of March.	Karri Shurnaik 27 Feb 2025 02:42:48 PM Kevin GRAHAM on February 27, 2025: Complete  Karri Shurnaik 19 Feb 2025 03:30:40 PM Back Road Div 2	Brad KAASTRUP	Public Works	Completed	2	COM - 15200
20 Feb 2025 09:44:03 AM	Lisa DEVOS called to advise RR 50 north TWP 490 has blown in again with the recent winds.	Karri Shurnaik 27 Feb 2025 02:43:11 PM Kevin GRAHAM on February 27, 2025: Complete	Lisa DEVOS	Public Works	Completed	2	COM - 15201
03 Mar 2025 08:31:37 AM	Email received from Brent SMITH via Report a Concern. Describe Your Concern (provide as much detail as possible): I was wondering if something can be done with the intersection of RR 40 and TWP RD 494. I'm not sure if there is a culvert problem or not. Every spring water runs down the north side of 494 and hits 40 and spills on to 494. As well, when it does rain through the summer, water runs down 40 and on to 494. This continuous problem has ruined the cold mix pavement over the years. Thank you Brent Smith		Brent SMITH	Public Works	Active	2	COM - 15218

21 Feb 2025 09:22:06 AM	Katherine FARKASH called. She would like to have the grader come out today. Her driveway is blocked at RA 493018 RR 52	Karri Shurnaik 27 Feb 2025 02:43:32 PM Kevin GRAHAM on February 27, 2025: Complete  Karri Shurnaik 21 Feb 2025 09:22:31 AM Has enrolled in the snow removal program	Katherine FARKASH	Public Works	Completed	3	COM - 15202
24 Feb 2025 09:25:48 AM	Councillor HRYCIUK called to advise there is still a good couple of drifts on RR 54 north of TWP 500 about 1/4 to 1/2 mile that when they melt could make a mess of the road. Please check it and see if you think the grader should cut it back a bit more.	Karri Shurnaik 27 Feb 2025 02:43:56 PM Kevin GRAHAM on February 27, 2025: Complete	Councillor HRYCIUK	Public Works	Completed	3	COM - 15204
26 Feb 2025 08:40:42 AM	Email received from Councillor HRYCIUK: Good Afternoon, A couple of things to note appreciation, one quite overdue on my part. The Buffalo Coulee Community group expressed their huge appreciation to the county, for our quick response and help with the ugly wind/snow situation going into their annual Perogy Supper Feb 1. Was happy to meet the grader pushing back snow off road on RR54 hilltop today from concern sent in yesterday. This most definitely will help the road as we come out of the recent deepfreeze into this current meltdown. Again, much appreciated! I think for fun I will take RR 62 to my next mtg today and see how the Rehab is faring. Sincerely, Stacey		Councillor HRYCIUK	Public Works	Completed	3	COM - 15209

26 Feb 2025 08:59:04 AM	<p>Email received from Councillor HRYCIUK: I took RR62 (2024 Rehab section) to town yesterday afternoon. While a good deal of it is dry and faring ok, there are a few sections that are not ok. Shaded stretch passed Stewart homes, the corners of the crossroads 501A, 501, 502, two lease approaches and the last stretch to and including intersection of Hwy 16.</p> <p>Those were mud and ruts, grabbing towards shoulders esp when meeting traffic.</p> <p>At highway, mud tracking onto pavement. The north 1/4 mile just before 16 was the worst.</p> <p>Can we have a look to see of there is anything can be done to improve those areas before they digress further?</p> <p>I have a call to return this morning to Don Stewart about that road.</p> <p>Sincerely, Stacey</p>	<p>Karri Shurnaik 27 Feb 2025 02:45:34 PM Kevin GRAHAM on February 27, 2025: Complete</p> <p>Karri Shurnaik 26 Feb 2025 09:02:37 AM Stacey Councillor HRYCIUK on behalf of Don STEWART at 8:42 AM: Good Day, I will just add here from my call with Don Stewart. His concern was exactly same as mine, most particularly the ruts and the entire section right before the highway. He would hate to see us do all that work and let it deteriorate to it's former state. Have a good day and appreciate the efforts. Stacey</p>	Councillor HRYCIUK and Councillor HRYCIUK on behalf of Don STEWART	Public Works	Completed	3	COM - 15210
27 Feb 2025 08:50:04 AM	<p>Email received from Councillor HRYCIUK: Good Day, Please check out the condition of RR54 Hwy 16 to first hill to lease approaches at top. Received a call about that being extremely slick tonight and will check it out myself tomorrow.</p> <p>Thanks Stacey</p>		Councillor HRYCIUK	Public Works	Active	3	COM - 15213

28 Feb 2025 11:29:07 AM	<p>Email received from Councillor HRYCIUK: I was asked to come have a look at RR63 between 500 &amp; 502. A real hazardous spot.</p> <p>I will be heading that way shortly, but wanted to send in advance of my drive in case someone is already in the area to also have a look.</p> <p>Thanks Stacey</p>	<p>Karri Shurnaik 28 Feb 2025 11:32:16 AM Email from Councillor HRYCIUK February 28, 2025 11:22 AM: Hi again, I am on RR 63 and see I sent wrong section of road. It is actually at and piece just north of the Atco gas "compressor?" South of twp 504.</p> <p>They had large equipment out on road earlier and looks like they hauled in a pad of rig matting. The bobcat still on site looks like he smoothed in front of site, but there are some deeper ruts for a small stretch north almost to next acreage obviously caused by their heavy load. Maybe some gravel paid by them for making the mess could improve the current situation. Thanks Stacey Ps Bobcat us being picked up right now.</p>	Councillor HRYCIUK	Public Works	Active	3	COM - 15217

25 Feb 2025 08:45:21 AM	<p>Joan REDMAN called about a property she owns in Dewberry on the West side of the Hotel. She has complained a number of times when the road was being built. She was assured that the new road would solve the problem of water running into their yard. The water is coming from the South side of the road going to the North across the sidewalk in front of their house and into their yard. They were supposed to keep the snow away from the hotel side of the street and haven't. The County needs to go and melt down the ice off the sidewalk as it's too dangerous to walk on. She wants a phone call back about this.</p>	<p>Karri Shurnaik 26 Feb 2025 08:47:43 AM Kevin GRAHAM on February 25, 2025 at 2:41 PM: Talked to Joan and we are moving all the snow from the north side of the street and cleaned out the culverts so the water can get away. We also cleaned out the pipe in the back so the water can get out of the yard. She would like us to clean the ice off her sidewalk to the house and i said no we cannot go on to private property. Complete</p> <p>Karri Shurnaik 26 Feb 2025 08:46:52 AM Email received from Joan on February 25, 2025 at 2:02 PM: Thank you Karri for your assistance. Attached is the letter dated April 22, 2022, that Ben McPhee was responding to in his phone call to me. I had other verbal communications with your office and with Leslie Cusack.</p> <p>I received a phone call this morning from the person looking after snow removal on the property expressing the dangerous</p>	Joan REDMAN	Public Works	Completed	7	COM - 15207

		<p>situation that has resulted from the snow melt from the south side of 49th Avenue and running across the road and into the yard. He expressed fear of danger of falling if he entered the yard. This is an on-going problem that will continue to exist and should have been addressed when the road was rebuilt. I expect that foreman Kevin Graham is also looking after the ice that has resulted inside the yard not just the public walk leading to the hotel. I have proven to be right. The little trench that exists along the north edge of the street is not deep enough to handle spring runoff especially when we live in a climate of thaw and freeze.</p> <p>1:30 pm Kevin Graham just phoned. Workers have removed the snow build up on both sidewalks to reduce amount of snow on sides of road. He says he cannot enter private property to remove ice even though I gave him permission and the County is cause of problem (road being built too high and snow not properly removed throughout the winter). He made light of adding a cement guard to the edge of the existing public walk to</p>
