RE: Satellite Transfer Sites

To whom it may concern,

The County of Vermilion River (County) has evaluated lands titled to the municipality and identified leased lands, in the attached agreement that are coming to the end of term December 31, 2024. The County is looking for the VRRWMSC's position and long-range plan that may or may not include some or all these lands as Transfer Sites.

The subject lands were brought before Council May 16, 2023, for discussion and direction. The opportunity to purchase these lands was brought forward and discussed, however further conversation with the VRRWMSC is required for consideration of available options.

The County looks forward to hearing from yourselves regarding the long-term plan for the Transfer Sites for the VRRWMSC. Should you have any questions regarding this matter, please contact the undersigned at the County office at 780-846-2244 or at planning@county24.com.

Regards,

A handwritten signature in blue ink, appearing to read "R. Garnett", with a large loop at the end.

Roger Garnett, C.E.T.
Director of Planning & Community Services

CC Marty Baker, Chair, VRRWMSC
Alan Parkin, Chief Administrative Officer, County of Vermilion River
