YELLOWHEAD HIGHWAY ASSOCIATION (1)

The Trans Canada Yellowhead Highway Association is a four (4) province, non-profit association established in 1947 to advocate for the development, maintenance, use and prosperity of the Yellowhead Corridor. Collectively they began to lobby for the development and recognition of this route as critical part of the Trans Canada transportation system.

The collaborative effort of the communities, constantly advocating to the provincial and federal governments, initially for the construction and now for improvements and upgrades, have achieved substantial success and influence. Today with the Port of Prince Rupert, northern western Canadian natural resource exploration and extraction, agriculture, tourism, bio-energy industries and inland multimodal ports, the Trans Canada Yellowhead Highway is more important than ever.
